

**LIBRARY MASTER PLAN
FY 22 – FY 24**

SEPTEMBER 2021

Overview of the Montgomery College Library Master Plan

The Montgomery College Library FY 22 - FY 24 Master Plan is positioned within the framework of the [MC2025 Strategic Plan](#), as well as the College's mission, vision, and values. This multi-year roadmap defines our key priorities for FY 22 - FY24.

In identifying our goals for the next three years, the MCL Master Plan aligns with the collective year-long planning and final recommendations outlined in our 5-year College Area Review. Further, this plan continues the focus and advancement in areas of technology support and succession planning.

The Library Master Plan is intended to be a living document subject to change based on internal capacity, external opportunities, and adjustments to the College's MC2025 plan and initiatives. Priorities will be established with a focus on initiatives that have high impact and clear alignment with strategic College initiatives, particularly those that emphasize student success. Assessment will be integrated into activities to continually improve resources, collections, services, and facilities to inform priority setting. As such, the plan and related activities will be redefined during the life of the plan through periodic revisions including changes based on library user and employee feedback, ideas, and recommendations. The Library Director, Associate Directors, Managers and Supervisors will ensure implementation of the plan.

Montgomery College Library Mission

The library facilitates student success by collaborating with the College community in the creation and delivery of innovative services in a culture of excellence and accountability.

Montgomery College Library Vision

Montgomery College Library is an inclusive and equitable learning environment that empowers students to be information-literate citizens and lifelong learners. We are responsive to the diverse learning needs of students, faculty, and staff, through service excellence and by providing access to the world's knowledge, all in pursuit of advancing student success and academic partnerships.
